

# 2024 MEMBERSHIP OPTIONS

New ownership. New clubhouse. New world-class practice facility.

# SAME GREAT GOLF COURSE

## THERE'S NO DOUBT BEARSPAW IS BACK.

Long regarded as one of the best private member clubs in Calgary, at its core Bearspaw offers one of the premier golf courses in the area.

But that's about the only thing that remains the same.

The club, which was acquired by long-time members, has a new clubhouse, which is certainly one of the best in the city. In the shadows of the clubhouse is the new practice facility, complete with Trackman technology, allowing you to work on your game whenever you want to. Located in the city's north-west, only a short drive from downtown, Bearspaw is your escape.

When these elements are combined, there's no question that not only has Bearspaw recaptured the magic that made a special club for members, but it has eclipsed its old status.

Take one great golf course, add a remarkable practice facility and a stunning new clubhouse, and you've got one of the top member clubs in Calgary.

Is Bears paw Back? You Bet—And

# BETTER THAN EVER

## A GREAT COURSE AND A FABULOUS WALK

Wandering over rolling hills, Bears paw offers a balanced course that provides the right mix to challenge the best players, while never overwhelming those seeking to enjoy the walk and camaraderie only golf provides. This is parkland golf at its finest, with fairways snaking between majestic mature trees.

## TOUR TESTED— GOLFER APPROVED

Bears paw hosted many of the best championships in the province, including Golf Canada's Mid-Amateur Championship and the Alberta Amateur, alongside professional events like the ATB Financial Classic. These championships demonstrate Bears paw offers the right championship flavour for better players, while maintaining a charm that allows recreational golfers to tee it up every day of the week.

## PLAY IT —TIME AND AGAIN

The 18th at Bears paw is among the best finishing holes in the country. Whether you make that birdie that helps you win your match, or come up short, one thing is clear—you're going to want to head right back to the first tee and try it all over again.

Industry-leading options—that's what the practice facility at Bearspaw offers to members.

## PRACTICE MADE PERFECT

Completely rebuilt and reconceived, the practice facility at Bearspaw offers Trackman technology that allows for the best range experience in golf.

## SHORT, BUT MIGHTY

Improving your iron and driver game will only get you so far. That's why Bearspaw offers a tremendous short game area, complete with two practice putting greens and a defined area where you can dial in your scoring clubs.

## PRACTICE OR PLAY—YEAR-ROUND!

With a cutting edge aboutGolf simulator, Bearspaw allows you to play or work on your game 12 months of the year. Leagues in the off-season allow you to stay connected with friends and ensure your game remains sharp.

# THE HUB OF OUR CLUB

Only three years old, Bears paw's clubhouse offers the perfect mix of modern rustic style with great vistas looking out over the 10th tee and surrounding holes as the Rocky Mountains delight in the background.

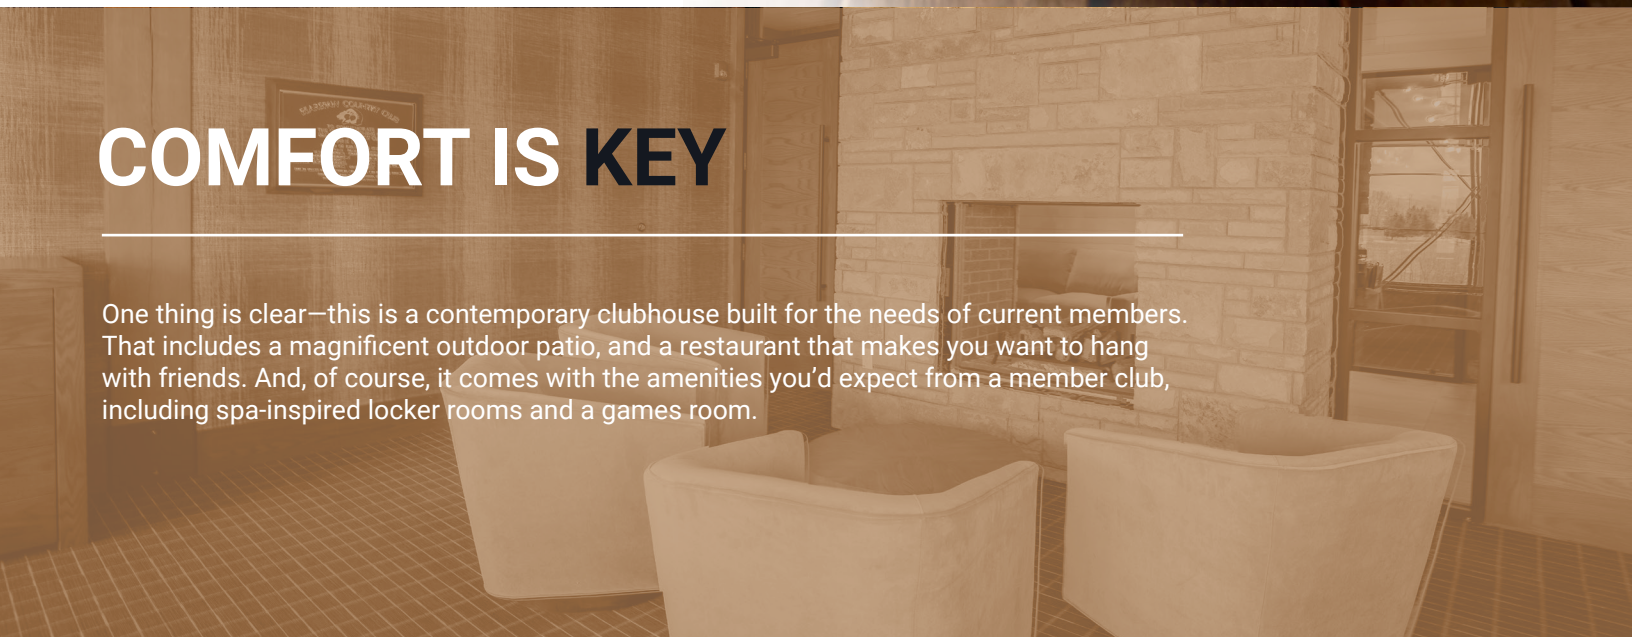

Embracing natural light, the open concept clubhouse is 30,000 square feet of space that welcomes you in, whether that's sitting on the deck after a summer round, or retreating in front of the fireplace as the fall begins to show.

## COMFORT IS KEY

---

One thing is clear—this is a contemporary clubhouse built for the needs of current members. That includes a magnificent outdoor patio, and a restaurant that makes you want to hang with friends. And, of course, it comes with the amenities you'd expect from a member club, including spa-inspired locker rooms and a games room.
